EDUCATION

The University of Texas at Austin, Austin, TX | GPA: 3.3

May 2029

Bachelor of Science in Computer Science, Minor in Professional Sales and Business Development

Relevant Coursework: Data Structures, Discrete Math, Calculus 2

Cornell University, Ithaca, NY

March 2026- Present

Certification from Break Through Tech in Foundations in Artificial Intelligence and Machine Learning

St. Philip's College, San Antonio TX | GPA: 4.0

Associate of Arts in Multidisciplinary Studies

May 2025

SKILLS & INTERESTS

Computer / Technical Skills: Java, Python, C++, JavaScript, HTML/CSS, PostgreSQL

Libraries & Frameworks: React, Node.js, TypeScript, REST APIs, Git, GitHub, Swift, SwiftUI, Linux, Vite

Developer Tools: GitHub Copilot, Cursor, Claude, Gemini, Prompt Engineering

Professional Skills: Data Analysis, Project Management, Process Improvement, Technical Communication, Analytical Problem-Solving, Cross-Functional Collaboration, Stakeholder Communication

Core Concepts: Object-Oriented Programming, Data Structures, Algorithms, Full-Stack Development, Problem Solving

Interests: Cooking, Tennis, Traveling, Thrifting, Fitness

PROJECT EXPERIENCE

Decoded | React, HTML, CSS, TypeScript, Vite | <https://github.com/VedaKolipakula/decoded/tree/main>

July 2026

- Developed a financial wellness platform as part of a cross-functional team, earning 2nd place at Fidelity FidHacks for creating an innovative solution that helps early-career professionals analyze offer letters, compare compensation packages, and make informed financial decisions.
- Delivered 5 core product features and collaborated across technical and product responsibilities to turn an initial concept into a functional solution, prioritizing user needs, coordinating feature development, and delivering the project within a fast-paced hackathon environment.

LinguaRoots | Swift, SwiftUI, Python, FastAPI, PostgreSQL | REST APIs | github.com/dnyame1/linguaroots

May 2026-Present

- Built a production-ready iOS heritage language learning app in SwiftUI across 8 screens in under 30 days, featuring personalized onboarding, interactive Twi lesson units, flashcard notecards, and end-of-lesson quizzes.
- Engineered a full gamification system — XP tracking, level progression, daily streaks, and an in-app shop — across 4 structured language units to drive learner retention and daily engagement.
- Integrated REST APIs to power an AI conversation feature for real-time Twi practice, enabling users to move beyond passive vocabulary drilling into active dialogue.

DermaTone: Where Everyone Can Feel Seen | React, FastAPI, Swift | <https://github.com/Nanamib/HookemHacks#ReadMe>

April 2026

- Designed and implemented inclusive AI features addressing dermatology bias by integrating MST 1–10 classification and deep-skin context annotations, improving condition detection accuracy for underrepresented skin tones and enabling analysis across 10 distinct skin tone categories
- Developed 6+ interactive frontend components including image upload workflows, results dashboards, glossary search, and fuzzy-match autocomplete, enabling real-time analysis workflows with sub-second UI response times.

EXPERIENCE

Handshake, AI Analyst, Remote

February 2026-Present

- Evaluated 100+ LLM-generated responses across specialized domains to improve reasoning accuracy, factual correctness, and response quality.
- Delivered structured analytical feedback across multiple evaluation dimensions, improving model consistency and reducing response errors.

Freshman Research Initiative (FRI), The University of Texas at Austin

September 2025 – Present

Undergraduate Research Assistant: Autonomous Driving Research Stream | ROS2, Python, LiDAR

- Programmed and tested autonomous robotic systems using ROS2 and Python, processing real-time LiDAR and camera sensor data to improve perception accuracy by 56% during autonomous navigation tasks.
- Collaborated with research team members to test and refine autonomous driving workflows in simulated and real-time robotics environments.

University of Texas at Austin, CS Camp Counselor, Austin, Texas

June 2026

- Mentored and supervised 50+ middle and high school students during week-long computer science camps, fostering problem-solving skills through hands-on programming activities.
- Collaborated with instructors to facilitate programming labs, maintain classroom engagement, and foster problem-solving skills.

Break Through Tech, AI/ML Fellow, Cornell University

March 2026 - Present

- Selected for a competitive AI/ML fellowship from a pool of 3,000+ applicants, completing intensive training in machine learning, data science, and responsible AI.
- Completed 40+ hours of technical training in Python, feature engineering, model evaluation, and machine learning using industry-standard tools.

H-E-B, E-Store Shopper, Seguin, TX

May 2024-Present

- Streamlined inventory retrieval and fulfillment processes for 1000+ online grocery orders, earning Top Shopper recognition within the first six months through accuracy and efficiency.

RELEVANT LEADERSHIP & INVOLVEMENT

UT Austin HerScript, External President, Austin, TX

August 2025 – Present

- Elected External President for the 2026–2027 academic year, leading external partnerships and professional programming for women in technology.
- Represented HerScript at AfroTech 2025, networking with 40+ recruiters and engineers from major tech companies to explore opportunities for women in tech.
- Selected to serve on the myScript Board, contributing to strategic planning, programming, and community initiatives supporting 100+ women of color in tech.

Texas Black Student Alliance, FAT Co-Chair, Austin, TX

August 2025 – Present

- Led publicity strategy reaching 150+ Black UT students across email and social platforms.
- Design promotional materials increasing engagement for BSA events by 40% in the first semester.
- Collaborated with executive board members to coordinate campus programming and outreach initiatives engaging 150+ Black UT students.

UT Austin National Society of Black Engineers Social Chair, Austin, TX

September 2025 – Present

- Coordinate with executive members to plan networking events, workshops, and mentorship programs for underrepresented students in technology.
- Assisted in organizing professional development and networking events connecting 75+ students with recruiters, engineers, and industry mentors.
